

Rocky Ripple Emergency Management

RREM

Inform • Educate • Train

Community Emergency Response Team Training

When: Three Saturdays, April 2, 9, and 16

Where: Town Hall (930 East 54th Street)

Cost: Free -- 21-hour time commitment

Presented by the Indianapolis Division of Homeland Security and Rocky Ripple Emergency Management (RREM), the **Community Emergency Response Team (CERT) provides basic training in disaster preparedness for residents**, which increases the ability of citizens to manage an extreme situation until first responders or other assistance arrives.

Using the training learned in the classroom and during exercises, CERT members can assist others in their neighborhood or workplace following an event where professional responders are not immediately available to help. **You will be trained to provide services such as supply distribution, fire safety, damage assessment, neighbor well-checks, light search and rescue, and disaster medical operations.**

The full CERT curriculum is a 21-hour FEMA-based training module comprised of eight classes, and completed over three Saturdays. Fully-trained CERT members graduate with a certificate of completion and are eligible for additional training. The last session of the training is followed by a hands-on practical simulation.

If you want to join the course or have questions, contact Andy Hazel at ajhaze77@gmail.com. Learn more at DHS online via Twitter, Facebook or their website at www.indy.gov/dhs.
